DESIGN

Aesthetics

- Follow the design DNA of the AE series and maintain the consistent sci-fi style.
 - The entire vehicle uses highly weather-resistant ABS materials.
- Compared with the general PP materials, the surface wear resistance is increased by 50%. Lifespan and fade resistance increased by 100%

Lights

- V-shaped position lights: continue the AE family design language and integrate with the turn signals.
- Embedded optical core headlights: high beam 30000cd, low beam 3100cd (competitive products 27850cd, low beam 3313cd)
- UFO taillight, X rear turn lights and flowing ambient light enhance the sense of fashion and high-tech while creating riding pleasure.

PRACTICALITY

- 405mmx500mm comfortable pedal space.
- Optimize the space structure and place the battery under the pedal to achieve a large 31L seat bucket space, which can accommodate a full-face helmet, raincoat and charger at the same time.
- Standard 18W USB and TYPE C plugs for added convenience.

Tires

Designed with sports concept, bringing better riding enjoyment.

- 12" all-round road tire
- The tire shoulder adopts a closed groove design, which provides excellent cornering stability.
